

I-Series Courses
are now...

Big Question Courses!

Don't panic! It is only a name change!
The requirements are still the same!

OFFICE OF
UNDERGRADUATE STUDIES

What should I know?

- Any courses previously taken as I-Series Courses will count toward the Big Question requirement.
- Any previously approved I-Series Courses will remain approved as Big Question courses without any action required.
- In the Schedule of Classes, the course code is still SCIS.

The requirements are still...

6 CREDITS | 2 COURSES

Next steps...

Review your progress toward fulfilling the Gen-Ed requirements by checking your unofficial transcript for at least **6 credits worth of courses marked SCIS**.

Still need the credit?

That's okay! Use the **Schedule of Classes** to find the right Big Question Course for you! Don't hesitate to schedule time with your advisor if you have questions!

Why the change?

The simple answer is that no one knows what "I-Series" meant. **All of these courses are centered around a complex question for which there is no simple, singular answer.**
